Address: 50 Fountain Plaza, Buffalo New York, Buffalo, New York, United States

Price: 5195.00 USD

Description:

The global ADAS market is expected to witness a CAGR of 18.1%, and is projected to reach USD 70.4 billion by 2024. The growth is attributed to the government stringent norms for vehicle safety and Increasing installation of ADAS by various small and large size companies. ADAS is vehicle-based intelligent safety system installed to keep drivers safe and accident free while operating their vehicles by the channel of complex real-time embedded systems. Demand for ADAS is expected to rise substantially over the forecast period owned to norms and regulation set across various legislation primarily in European and North American nations. Automotive industry are embedding new technologies and systems designed to assist...
