Description:

One of the biggest reason Goechala trek is so much fond by the hikers is the ecstatic view of the big mountain range one can find than other trek in India. Goechala, a high mountain pass in eastern Himalaya has been fascinated by many tourists because of the maximum number of Mountain peaks or summits to be witnessed while trailing across the routes of Goechala Pass. To wonder it has been found that the hikers witness the scintillating view of 14 big summits while trailing from Yuksom, a sleepy small village from where trekking starts for Goechala. The most significant among all these summits is undoubtedly Mt. Kanchenjunga which is best viewed from different places of campsite while proceeding on Goechala trek...
