Address: Seattle, Washington, United States

Price: Free

Description:

A team of 5 students studying BTech in India are developing free professional looking websites to add those projects to their resume before campus Interviews. If anyone is looking for free static HTML,CSS, JavaScript based websites they can design and deploy for you. They can also guide you if you need any technical help related to website development. They are not yet into database related development but have plans to develop dynamic sites soon. All They Need is: Number of html pages, Names Content for each page Images Any reference site Your domain details Their only request is to add a developers page with their names in it. Their main intention is to focus their names as web developers for those projects w...
