Price: Check with seller

Description:

Makeup brushes get dirty so easily, especially the ones you use for your eyeshadow or foundation. If you are feeling tired of searching for the best beauty and makeup tips blog then Tea Cups and Tulips is the perfect place for you. Below read some steps about how to clean your makeup brushes with soap: - Get a bowl filled up with warm water, your makeup brushes/blenders, and some soap. Any soap will work, I'm using this one. - Rinse the soap with the warm water you have collected in your bowl then do the same with the brush. - Stroke the wet brush in a circular motion around the bar of soap. You will notice the makeup begin to bleed out of the brush. - Massage the soap deep into the bristles using your fingers....
