Price: Check with seller

Description:

If you have spaces between your teeth, or if your teeth are crooked or crowded, then orthodontics may be just the right option for you. Braces straighten your teeth, align your bite, and allow for more efficient brushing and flossing improving your oral hygiene. Because of the advances in the field of orthodontics, people of any age can benefit from having braces, while newer products and techniques help to create a more beautiful smile. For our younger patients, we recommend an orthodontic screening by the age of seven, which could provide an earlier diagnosis of probable crowding and alignment concerns of emerging permanent teeth in the future. Once orthodontic treatment is completed and the braces are remove...
