Price: Check with seller

Description:

The SmartThings HwiseL Appliance Monitoring Kit has everything that is available in the SmartThings Home Monitoring Kit plus the SmartThings Water Leak Sensor that can catch leaks right away and help save your home from water damage. HwiseL integrates with your smart home systems which lets you manage your homes from anywhere in the world, taking convenience to the next level. You no longer need AI for your home service needs, integrate your smart home devices with our technology so that you don't have to wait around to get your appliances repaired. The SmartThings Smart Outlet can be used to turn traditional devices into smart devices, and the SmartThings Button allows you to control your devices with a simple...
