Address: 390 Route 10 West, North Building - Suite 102, Randolph, New Jersey, United States

Price: Check with seller

Description:

NJVVCC provides Pigment Balancing Chemical Peel in NJ, a unique formulation type of chemical peel that is designed to directly target photo-damaged or sun-damaged areas of the face, hands, arms, or back. This effective treatment brightens up pigmented skin and treats uneven skin tone with a discolored or mottled appearance. Obtain the desired results, in four to six sessions with our customized chemical peels.
