Address: 7010 Chimney Hill Drive Nolanville, Texas, 76559, USA, Nolanville, Texas, United States

Price: Check with seller

Description:

Pro tip for epic vacation photography use the rule of thirds to move your subject off center to create depth to your image. Use the grid function that is on your phones camera or just see it in your mind as a tic tac toe board. Moving your subject out of the center and placing it to either side of the frame will give you amazing results. Get your subject to look into the frame to add even more depth.
