Address: Denver, Colorado, United States

Price: Check with seller

Description:

Yes Phenologix can share your load and make software development as easy as on automation for you. Phenologix is a North American based company with offshore application development / design set-up. We can provide you the best resources matching your requirement by saving you upto 50% on development cost without any compromise on the quality. We can offer you 2 weeks free trial with the assurance that with our locally managed offshore team you will feel as if they are working with you locally. When you outsource one managed resource, we take care of the project management and initial quality assurance. We have some success stories to share with you where one of our customers was not happy with other offshore pa...
