Address: Tucson, Arizona, United States

Price: Check with seller

Description:

Residential therapy programs are staffed to provide constant supervision and therapeutic support. These programs are set up to treat mental health disorders by providing services to include education, support, therapy, medication, and discharge planning. Many well-regarded residential therapy programs: Licensed by the state. Accredited academics. Experienced and professional staff with on-site doctors, therapists, psychologists, and mentors. Provide a holistic and safe environment. Offer individualized treatment plans.
