Address: Painesville, Ohio, United States
 Price: 27.29 USD

Description:
 The quality indoor lighting plays an important role in making the commercial place well illuminated and also helps the customers in shopping their desired food items easily. The lack of lights inside the big coolers and freezers kept at the departmental stores, make it difficult for the customers to clearly see things; therefore ensure that all your food items look visible from extreme corners as well by installing LED freezer lights over there. Among various different sized cooler or freezer lights, you can install 5ft LED cooler tubes to enjoy amazing lighting results. Advantages of installing 5ft LED freezer lights are as follows: These 18w 5ft LED freezer lights produce 2160 lumens and are the perfect repla...
