Address: 911 NW 209th Ave. #129, Pembroke Pines, Florida, United States

Price: Check with seller

Description:

As we all know Bloom Booster fertilizer is a fertilizer with a high middle fertilizer number and it is high in phosphorus. It may also have a higher than normal amount of potassium. The Bloom Booster formula contains all three macronutrients for plant growth, but the mixture has an especially high concentration of phosphorous. While high nitrogen content encourages the growth of foliage, an abundance of phosphorous encourages plants to produce plenty of strong, healthy flower buds. So, if you are searching for Bloom Booster Fertilizers, just visit us at www.advancednutrients.flywheelsites.com and get the best deals.
