Description:

South Florida homeowners associations have many unique issues which need to be addressed; such as collections, delinquencies, building maintenance, landscaping, lake erosion, and much more. These issues need to be dealt with promptly and properly in accordance with state statutes. Having managed HOAs since they first emerged in South Florida, Campbells licensed property managers have the experience and support they need to provide solutions, while making sure the association is compliant with legal requirements set forth by Chapter 720 of the Florida Statutes. <https://www.campbellpropertymanagement.com>
