Description:

For the Mack Daddy PM-Grind, Phil Mickelson gave his direct input to Callaway wedge maker Roger Cleveland for a design that gives Phil an edge in the majors, and gives you an edge on the toughest shots around the green. They worked on every detail to precisely craft a wedge with the look and performance Phil wanted. It has a unique shape so you can be aggressive in your short game, with more surface area, grooves that go all the way across the face and a high toe that moves the weight higher.[https://golfiya.com/pr](https://golfiya.com/product/callaway-mack-daddy-pm-grind-wedge-men-s-right-hand-56-13-steel-s300-chrome/)oduct/callaway-mack-daddy-pm-grind-wedge-men-s-right-hand-56-13-steel-s300-chrome/
