Price: Check with seller

Description:

The Specialized Roubaix Comp Ultegra Disc Road Bike is built for riders who like to ride fast over any road surface. The next generation of a bike with six wins at Paris-Roubaix to its name, this Roubaix is built on a FACT 10r carbon fibre frameset which delivers a stiff platform to transfer all of your power. This lightweight frameset is more aerodynamic than its Specialized Tarmac cousin, with FreeFoil tubes refined in the wind tunnel. Features Specialized FACT 10R carbon fibre frameset, Rider-First Engineered FreeFoil tubing - lightweight and aerodynamic Future Shock 1.5 front suspension unit with top and bottom end bumpers, smooth action, tension may be adjusted using various spring weight...
