Address: 234 Cascade Rd, Stamford, Connecticut, United States

Price: Check with seller

Description:

Get the newest Sega Homestar planetarium flux with very good product quality and has an extensive repertoire of functions. Dark Skys brings the Home planetarium with an optical star projection system with high brightness and able to project its image between 120cm to 290cm. With the original Sega Homestar planetarium flux, the dream comes true of watching stars in your ceiling or wall. Lenses project an incredibly accurate sky with stars on the wall and it is ideal for surprise gift. USB cable is available with power adapter for power supply from the power or simply from a power outlet.
