Description:

Your response to grow your business and protect your employees and customers at the same time in unforeseen circumstances is key to facilitate sustainability & uphold the brand reputation. Owners of SMBs are scrambling to figure out how to deal with business disruption. Furthermore, its not too last-minute for businesses to set up remote workforces & enhance communication. Heres a list of things you can do to grow your business & protect your employees & clients. #1. Establish a remote working plan. With millions of people working from home or working remotely, there are a lot of free online video conference software business owners can utilize for teams to stay in touch and keep their business operations runni...
