Address: 2415 Jordan Road, Huntsville, AL, Huntsville, Alabama, United States

Price: Check with seller

Description:

Imagine your neighbors were walking by the driveway and then tripped over your sunken concrete. It could be your kids, your elderly parents, and others who are not aware of the damaged concrete slabs. Cracked and sunken concrete driveways or sidewalks are not just unsightly but also can cause a tripping hazard. Concrete jacking in Huntsville is the best option to fix the problems that you face. AFS Repair can fix the sinking outdoor concrete problems using SettleStop to lift concrete slabs to a stable position. Concrete jacking is a proven and practiced alternative to replacing your old concrete slabs with a new one. Thus it saves you money and resource, creating less mess and less disruption.
