Address: Atka, Alaska, United States

Price: 20000.00 USD

Description:

Mist Pump manufacturers share cosmetic packaging materials into main containers and auxiliary materials. Lipstick tubes are marked with different capacity characteristics with different lengths. The capacity is 3ml-360ml, which can be adjusted. For aesthetic coordination, the caliber below 35# is usually used below 35#, 100ml, 150ml usually use the caliber 35#-45#, and the capacity above 150ml is required Use caliber above 45#. The main container is usually: plastic (structure: synthetic resin, plasticizer, stabilizer, colorant) bottle, glass bottle, vacuum bottle, aluminum bottle, etc. 1. Plastic (structure: synthetic resin, plasticizer, stabilizer, colorant) bottle The material of plastic bottles is usually P...
