Address: 630 Freedom Business Center Drive, 3rd Floor, King of Prussia, Pennsylvania, United States

Price: Check with seller

Description:

This Lean Six Sigma Executive Overview course introduces executives to Lean Six Sigmas logical approach to process improvement that helps organizations differentiate themselves from their competition by doing things better, faster, at lower cost, and with less waste. Course participants learn about implementation approaches, the DMAIC methodology, the extent of their personal involvement required, the organizational resources required, and the organizational roadblocks that need to be removed to make Six Sigma a success.
