Description:

Since the beginning of this year, our daily activities have been affected due to the Covid-19 pandemic, specifically students. Most schools are sending their students to their homes and begin the semester remotely. As we know, not all students prefer taking online class because of several factors such as technical issues, distraction, staying motivated, time management, lack of communication, and many more. Here are some tips for taking online classes: create your study space, practice time management, get enough sleep, and be prepared. Classes we offer: Online EKG - <https://esacademy-usa.com/electrocardiogram-ekg-ecg/> Online Phlebotomy - <https://esacademy-usa.com/phlebotomy/> Nurse Aide - <https://esacademy-usa....>
