Description:

The M Series is the newest member of the Fireline Systems family. This medium size contents production line provides the same watts per gallon ultrasonic power ratio of the larger Series I and Series II Systems. Developed for smaller contents rooms the Pre-washer and Ultrasonic Cleaner are shorter in length but feature the same essential width and depth dimensions of the larger systems. The M Series offers fast pace processing at an affordable cost and includes the TD 8000 High Volume Vortex Tunnel Dryer designed to keep up with FIRELINEs high output production rate. Fireline products are specifically designed to deal with the many variables encountered in contents restoration and are known for their performanc...
