Price: Check with seller

Description:

LabShares could be considered one of the top biotech lab space providers in Massachusetts. Here are some of the reasons why: - LabShares is located in a suburb which enables it to offer a relatively more affordable lab space rental rates but still near biotech hubs Cambridge and Boston for resources and networking. - It is fully permitted and maintained for bacterial, rDNA, tissue culture and lentiviral work. With over 6,000 square feet of BSL2 lab space, we can accommodate and accelerate your innovation with our turnkey biosafety level 2 lab space for rent. - It provides a variety of lab space equipment such as cryostorage, freezer, fume hood, high-speed centrifuge, gel imager, HPLC, incubator, real-time PCR, ...
