Description:

Applied Functional Science (AFS) is a unique and combined approach for evaluation, rehabilitation, training, and conditioning that improves neuro-muscular-skeletal comfort and performance for people of all ages and conditions. AFS specifically uses natural three-dimensional movement strategies to subconsciously normalize biomechanical chain reaction efficiency and effectiveness. At Sports and Ortho Physical Therapy located in and around Chicago, and Glenview, IL, our AFS trained physical therapist has unique training to find that faulty part, evaluate how it has affected the rest of your body, and the unique ability to fix it correctly. Our main focus is on damaged or weak areas to help you analyze the root c...
