Description:

Do you need to see a back pain but circumstances prevent an office visit? Pain Treatment Specialists offer video visits so you can find relief right away. Some doctors arent qualified for video assessments, but each back specialist at Pain Treatment Specialists holds extensive certifications, training, and experience at diagnosing pain. Dont choose a back specialist who will recommend risky remedies like narcotics and invasive surgery. Instead, select a back specialist from our Ivy League trained team of doctors with non-invasive solutions they can recommend via video visit.
