

Address: 1903 E 300th St Suite C, Cleveland, MO 64734, Cleveland, Ohio, United States

Description:

Green Resources Consulting is the leading green resources consulting firm in Missouri and Kansas. We utilize the best resources that help us to facilitate a healthy environment, not just for our planet, but for ourselves, and our children. Everyone deserves equilibrium in the environment. Our main focus is to utilize bamboo extensively in the production of products that are sustainable and renewable. We have N95 masks made in America that filter 99% efficiently particles as small as .007 microns, while N95 face masks efficiently filters 95% of microns .3 and larger. This is significant when talking about the Coronavirus because the virus is .1 microns in size. Other products like our sheets are made from bamboo...
