Contact: John Mills

Phone:

Address: Newark, California, United States

Price: 810.00 USD

Description:

GMG is developed this ISO 39001:2012 documentation and training kit. The ISO 39001:2012 standard is required a specific set of documents for its effective implementation and certification. The Documentation for ISO 39001 contains Road Traffic Safety Manual, procedures, exhibits, sample forms, audit checklists, etc., which are primary documentation requirements. This readymade ISO 39001 Documents with a training kit is designed to minimize the time and the cost involved in certification as well as better control over the implemented Road Traffic Safety Management System. The Free Demo of ISO 39001 Documentation kit is available to guide users and provide facility for easy to learn. User can modify the templates...
