Price: Check with seller

Description:

Quantum Technology was founded 30 years ago. We are a diversified company specializing in Data Center and Laboratory decommission, with a focus on purchasing and reselling Data Center and Laboratory equipment. The companys unique offering is to provide substantial revenue return to businesses that are liquidating their Data Center or Laboratory Assets, while also providing a full solution: performing the labor to disconnect and remove equipment at no charge or substantially reduced costs. Quantum is able to provide such services because of the recovered equipments intrinsic market value, as well as its long experience in the domain. In addition to lowering the cost to your organization, Quantum will lower the ...
