Description:

About SELS Products 1 SELS LED light bulb lasts as long as 25 Incandescent bulbs. The efficiency of SELS LED bulbs is more than five times higher than comparable incandescent bulbs. SELS LED lightbulbs use only 20% of the amount of electricity used by incandescent to produce the same amount of light. SELS LED lighting products are among some of the most efficient lighting products available. Most of our products have a luminous efficacy over 90Lm per watt. Our light bulbs do not contain mercury or any other hazardous materials, so you don?t have to worry about special dispossal procedures or having a negative impact on the environment. CFL bulbs contain mercury, which is hazardous to the environment and to your...
