Description:

BIKE SIZING GUIDE Choosing the bike size depends on the type of bike, your height, your riding style, and your preference. A correct fitting bike will be more comfortable, more efficient and more fun to ride. This bike size guide gives our customers general advice on choosing the right size. It is a guide only and we always recommend visiting one of our stores or contacting one of our experts from our contact us page. To get started, think about your style of riding, measure your height and use the links above for sizing on relevant bike types. Measure your heightTo find the correct sized bike you will need to measure your height and your inside leg. For your height, stand against a wall and mark the wall with ...
