Description:

Domestic violence in the United States has increased. As fewer co-habituating couples are marrying, statistical data now tracks intimate partner abuse instead of marital abuse. According to the National Coalition Against Domestic Violence (NCADV): More than 10 million adults suffer domestic violence a year. An intimate partner will abuse nearly 20 people per minute. Intimate partner violence accounts for 15% of all violent crime. If you are in an abusive marriage and need help, some programs can give you immediate assistance. You can find the resources you need for an experienced Pasadena domestic violence lawyer at Baghdasarian Law Group, Inc. They can help you formulate a plan to protect yourself and your child...
