KDK Forging Co.

Contact: Sam Mahisekar

Phone: 1-708-388-8770

Address: 2645 W. 139th St., Blue Island, Illinois, United States

Price: Check with seller

Description:

Stabiliser bars, which are an integral part of the ride control system, are forged by KDK's chassis forgings. They're also known as "anti-roll bars." Many considerations go into the design of a stabiliser bar. A stabiliser bar can be used to balance forces both vertically and horizontally. They help the automobile stay flat in corners and through bumps, as well as improve overall ride control. Address: K.D.K. Upset Forging Company 2645 W. 139th St. Blue Island, IL 60406 P: (708) 388-8770
