Description:
Come take a look at this beautifully renovated, massive 3,000 sq. ft home. The spacious layout encompasses 5 bedrooms, 4 bathrooms, a living room, dining room, breakfast nook, and pantry. You will love the brand new appliances, large amounts of closet space, ample natural light, granite and marble countertops, high end fixtures, the list goes on! The master suite is truly amazing with its huge walk-in closet and french doors that lead out to a private deck. The home features three outdoor decks, including the top deck with a view of the Capitol. Not only does the home feature generous living space, it also includes a driveway and room for multiple cars behind the home. Great location - just a short walk from DC...
