Contact: Affordable Lighting

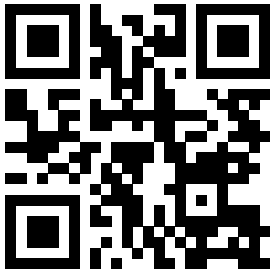

Phone:

Address: Trussville, Alabama, United States

Price: Check with seller

Description:

Affordable lighting presents the most versatile and ozone-friendly indoor or outdoor LED UFO high bay light for repositories, manufactories, gas stations, amphitheaters, convenience stores, sports arenas, and fitness centers. The energy-efficient sustainable lights come without the noxious mercury, and also do not have IR or UV radiation in their glow. Besides, they offer 5 years warranty, with 50,000 lamp-hour life, and can be started instantly, negating any unsteadiness and buzzing in their illumination. They can be easily affixed to different altitudes ranging from 12-40 feet, thereby allowing the uniform spread of light inside the commercial establishments.
