Description:
SVR Global is a proud Butterfly valve manufacturer in USA, contact us today to learn more about the different varieties of butterfly valves we provide. Butterfly Valves are designed to fulfil the most stringent international standards. They also adhere to major rules and customer demands in the oil and gas and power industries. A butterfly valve is a quarter-turn rotary valve that regulates, controls, and starts flow. When the disc is spun a quarter turn, the valve fully opens or closes, allowing for quick shutdown. When the disc is spun a quarter round, the valve is fully open or closed. The principle of operation allows for a rapid shutdown. These are 90-degree valves that work in the same way that ball valve...
