Price: 21000.00 USD

Description:

I am the original owner. I bought this truck in July 2013 and have put just over 32K miles on it. Pretty much all commuter miles, never been off-road. Ive had all the routine maintenance done at the Ford dealership. I put a short antenna, bug screens in front of the radiator and intercooler, and boost bars on(small grill in the intercooler hole). Those are the only modifications that have been done. This truck has just about everything you could want
