Address: La Fargeville, New York, United States

Price: 500.00 USD

Description:

OneTouch EMR is an open-source cloud-based electronic medical record (EMR) and practice management (PM) solution that helps practices, including Family Medicine, Internal Medicine, and General Practitioners automate the process of patient care. The platform is easy to use and user-friendly in a way that it is completely simple, robust, and intuitive. Users can access the platform remotely through any device from iOS and Android power gadgets to regular desktop web browsers. If you have any confusion about features then you can enjoy Free Ontouch EMR Demo provided by findEMR.
