Description:

Balance and gait disorders can result from a sudden injury or neurological conditions like stroke, Parkinsons disease. At Burlingame Therapeutic Associates, our highly trained professionals review your medical history, take note of your symptoms, and conduct a physical examination to examine your balance, gait, and posture. Then they come up with an individualized treatment plan that includes stretches, strengthening exercises, gait retraining activities, and vestibular rehabilitation to help regain normal balance and prevent the risk of future injuries. If you experience balance issues and looking for an effective treatment, visit https://burlingametherapeutic.com/ to request an appointment or dial 650-692-481...
