Price: Check with seller

Description:

Blue light therapy is a noninvasive treatment for acne that uses high quality PBM certified bio-active blue light to kill certain acne causing bacteria beneath the surface of the skin whilst also helping to regulate excess sebum skin oil production. The Lumiere Rouge is non-surgical, non-toxic and is 100% safe and pain free, with no side-effects. 97% of all customers including celebrities see changes to their skin in their 1st week of using their Lumiere Rouge for just 10 minutes.
