Contact: Sandpiper

Phone:

Address: Saint Louis, MO 63110, Saint Louis, Missouri, United States

Price: Check with seller

Description:

When listing their homes on the market, homeowners often miscalculate the proper asking price. Sellers might bump up the asking price of their home based on their own emotional attachment rather than the value of comparable properties. They might overvalue updates and improvements made to the interior or exterior of their home. https://www.sandpiperlistings.com/blog/how-do-realtors-set-the-asking-price-of-a-home
