Address: 1400 Jack Warner Parkway, Aliceville, Alabama, United States

Price: Check with seller

Description:

Westervelt Wildlife Services is a deer habitat management company. When landowners desire to increase specific types of animals on their property, habitat management is applied. Its plans include invasive species removal, vegetation restoration, and controlled animal hunts. Deer habitat management will change the environment over time, while also increasing the carrying capacity of native species and improving the sporting elements of your property. For more information about habitat management, please contact us at 800-281-7991 or visit our website.
