Price: Check with seller

Description:

Selling my Defender that was bought back in 2009. Had major stalling issues at first once can once the engine warmed up. Turns out it was due to a bad ground and the truck has been reliable ever since. Replaced the following - back door & lock (due to rust), passenger floor panel (again due to rust), fuel pump, shocks, tie rod ends, steering damper, door & vent seals, ignition switch, tunnel carpet, front seat covers, and added a Land Lover head unit for stereo. Changed the floor mats, back signal covers, front seat belts, and the transmission shifter illumination unit because they were showing signs of age. Replaced some of the rusting bolts with stainless steel bolts. A few years back my Defender was parked i...
