Description:

BJM Group acquires firms with strong community presence, then invests in their future through technology, operations, staffing, marketing, and other essential resources. Owners remain involved over time, ensuring a smooth transition, sharing in the ongoing success, and cementing their legacy. Our goal is to align with each owners vision and build on their firms history, heritage, and strengths. We seek owners who desire to play an active role in their firms after the transition is complete, taking advantage of BJM Groups resources while freed from the daily hassles of owning and operating a business.
