Description:

With the ever-changing e-commerce landscape and growing volume of big data, it has become challenging for enterprises to have a competitive edge, connect with customers and decode relevant information to get a comprehensive view of their customers requirements. SAP Hybris is an end-to-end online store partner which is specifically designed for the e-commerce industry. As a cloud-based CRM solution, SAP Hybris allows you to keep track of customer data, their preferences and buying sentiments to optimize marketing strategies and boost sales. It offers an entire suite of CRM solutions that provides a holistic view of the entire buying journey. As a strategic SAP Partner for years, Stridely Solutions has a prov...
