Price: Check with seller

Description:

While recruitment is one of the most vital pillars of any organization, there is a lack of effort in employee onboarding. What most organizations miss out on is providing the new recruits with an amazing experience during their onboarding. So, the presence of a comprehensive employee onboarding software is imperative for every corporate entity, irrespective of their size or scale. The Mind Workplace, from Omind Technologies, is the perfect example of the most sophisticated employee onboarding solution. The all-in-one employee lifecycle management software is a combination of multiple modules to take care of every aspect of an organization, including recruitment, onboarding, employee efficiency, learning managem...
