Description:

Every pet has a different ability to perform with different products. As per the study, Panacur for Dogs has not shown any such harmful adverse effects on pets. Just around 1% of pets have shown some side effects which are as follows: Diarrhea or loose stools Allergic reaction to dying parasites Nausea Vomiting If your dog shows any of the above symptoms, please consult the nearest veterinarian to get a complete idea of whether it's required to take this medicine or not. Looking for the best medicine to prevent your pet from fatal parasitic infections? Panacur C Canine Dewormer is the best option to prevent your pet from tapeworms, hookworms, whipworms, and roundworms.
