Address: 13445, South West SW,106th Avenue, Miami, Florida, United States

Price: Check with seller

Description:

We all ride in different ways. Some of us love knee-scraping sharp turns, while others are afraid of them. Maybe that's the difference between a rider with little or no experience and a rider with a lot of experience. As expected in some upside-down situations, the newbies are the ones who can't make the most of the power of their B.I.G. machines because they find it hard to control their power while moving from one place to another.
