Description:

Did you know a career in Cyber security has 2 key advantages over other career paths: Low unemployment and a strong paycheck? All it takes to get started in the cybersecurity field is a certificate. Thats it! Pass a test and get certified. I know what youre thinking. What does it take to pass the test? Dont worry, GitBit has everything you need to pass the exam. You know what the best part is? Its FREE! Thats right. For a limited time, GitBit training is completely free. Go to https://www.gitbit.org to get started. GitBit is an online course that teaches you everything you need to know to pass the Microsoft 365 Security Administration (MS-500) and get your certificate. Microsoft 365 is critical for over 1,000,0...
