Description:

98thPercentile is back with another inquisitive activity for children in grades 1 to 5 DIY Image Recognizer App an informative E-Book & DIY Video tutorial on computer coding. These free resources include a thorough walkthrough to coding app development as well as simple instructions for children to develop their very own App. Together the e-book and DIY video tutorial will sharpen and upskill young minds while instilling valuable coding skills for their future. Give your child the gift of time well spent. This limited-time offer comes with no constraints or difficulties. With the provided step-by-step material, students have the power at their fingertips and will love compiling the Image Recognizer App with the...
