## Description:

Social media is the new standard method of connecting people across the world. In modern times almost everyone in the world has access to the internet. The internet charges are very minimal & highly affordable for everyone, this has led to an increase in daily social media users, especially on the most successful social media platform in the world Facebook. Facebook is a social media platform that alone has 1.62 billion active users worldwide, creating a global network of connecting people across different countries. This global network of people has created an opportunity for businesses to target customers on a mass level. Videos are the best way of getting more interactions, comments, likes, reach, and engag...
